

2018 SIRUI Mobile Phone Photography Accessories Catalog

About SIRUI

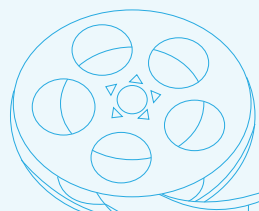

SIRUI always strives to manufacture products that are innovative in design and concept and of the highest quality. Because of its superior production technology and established sales and support system, SIRUI has become well known as a company that develops, manufactures and sells the most professional quality photographic and video equipment in the industry. SIRUI operates its own production facilities , and has the most modern production equipment with over 500 SIRUI-trained production employees. With this great quality and attention to detail, SIRUI has been widely praised and trusted in the domestic and foreign markets for many years.

SIRUI designs, develops, produces and sells: Optical Lenses, Handheld Stabilizers, Intelligent Heads, Filters, Sports Cameras, Professional Photo & Video Supports, Humidity Control Cabinets and other precise photographic equipment. SIRUI's diverse, international engineering group, combined with our industry leading Research and Development Department, have made SIRUI an expert manufacturer in our industry. SIRUI has established an impressive customer service network throughout the world, and over 300 sales outlets and terminal showrooms to provide our customers with the most professional, effective and considerate service and support.

"SIRUI, Capturing your Imagination!" is our brand slogan. SIRUI is looking forward to growing this great Chinese national brand in the photographic equipment industry, and improving "Made in China" to "Wisdom in China".

reflection Coatings

Professional SLR
Imaging Quality

18mm Wide Angle Lens

SIRUI 18mm Wide Angle Mobile Phone Auxiliary Lens helps you to create stunning, professional quality wide angle images and limit distortion around the edge of images! The capability of the Wide Angle Lens creates images equal to that of an 18mm SLR lens to bring more of the scene into the frame. Perfect for landscape images or even large group images to get everyone in the frame!

Specifications

Product: 18mm Wide Angle Lens	Lens Structure: 6 elements in 6 groups
Model: 18-WA	Optical Distortion: <2%
View Angle :95° diagonal	Focal Length: Equal to full frame 18mm

3 Colors for option: Black / Red / Blue

10X Macro Lens

The Macro World is more fantastic than what we can imagine!

SIRUI 10x Macro Auxiliary Lens provides a macro solution unattainable with the standard smart phone lenses. The 10X optical zoom can magnify the object and clearly capture all of its splendid details.

Attach the SIRUI removable half-transparent soft light cover onto the lens to help distribute the light evenly onto the object for amazing results.

The SIRUI MC-02 Macro Lens opens up the amazing world of macro photography to your smart phone!

Specifications

Product: Macro Lens

Lens Structure: 3 elements in 2 groups

Model: MC-02

Optical Distortion: <1%

View Angle : About 75°

Magnification: 10X

3 Colors for Option: Black / Red / Blue

Fisheye / Macro Lens

Macro photography can be one of the most technically challenging forms of photography and almost impossible for a mobile phone. The SIRUI FE Mobile Phone Lens changes that. Not only is it an exceptional ultra-wide fisheye lens, but it also allows you to create stunning macro images. This SIRUI FE Mobile Phone Lens gives you the ability to capture amazing and perfectly focused images while the lens is only 3-5mm from the subject.

Table Top Tripod Kit

SIRUI TSH-01BX Table Top Tripod Kit is a creative support for mobile photography. It combines a tripod, selfie stick, phone clamp and bluetooth remote control in one product to allow you to use your mobile phone in many unique ways. Integrated folding and compact design for easy storage. Tripod feet with anti-slip cushion at the bottom for steady shooting. Only 210mm (8.2 inches) when folded. It includes a specialized storage bag for convenient transportation. It's a reliable partner for your smart phone photography needs.

Specifications

Model: TSH-01BX

Included: MP-AC-01 Automatic Open Phone Holder

Bluetooth Shutter Control

1 Used as a mobile phone tripod.

2 Used as a bluetooth Selfie Stick.

MP-AC-01 Automatic Open Phone Holder

The SIRUI MP-AC-01 Automatic Opening Phone Holder has soft rubber padding to protect your phone from scratches and hold it securely. It can be extended quickly by pressing with one hand to fit phones from 4" to 6". The Phone Holder can be removed and attached to a tripod or other support devices with a 1/4" screw.

MP-MH-01 Multi-function Universal Mini Clamp

The SIRUI MP-MH-01 Multi-function Universal Mini Clamp is a convenient, compact solution to attach your photo accessories anywhere you need them. The universal ball head of the clamp can be adjusted 360 degrees. The Multi-function Mini Clamp is designed for clamping on to anything with diameter between 16mm~28mm. The 1/4" screw on the ball head can help to connect other devices.
